The private lesson activity is a very important factor in the success of the music programs in our district. The continuation of individualized music instruction depends on parents' cooperation and faithfulness in keeping up with monthly charges. Lessons will be billed based on students' attendance. Failure to remit payment for lessons received may result in students being dropped from the Private Music Lesson Program. The school district will not be responsible for funding private music lessons.

Please Note: Due to the various experience levels of our private lesson teachers, the price range will vary based on the teacher and time frame assigned to your student by your student's director.

25 Minute Lesson	30 Minute Lessons

- This application and the deposit fee of \$60.00 are due at the time of registration. (Deposit fee will be applied to the account or returned to the parent at the time of graduation or cancellation of lessons.)
